

# Assignment Search Webinar

Public Information Services Group  
Office of the Chief Information Officer

January 22, 2015

# Training Objectives

- Introduction
- Conducting an assignment search on the web
- New features and functionality for assignment searching
- How to perform common searches
- View query history
- Additional resources
- Coming Soon

# What are Assignments?

- An assignment is a conveyance or transfer of ownership of a patent or patent application
- The vast majority of assignments are recorded with the USPTO
- Recordation is not required
- Assignments are recorded in an Assignment Database according to their “conveyance” type and given a Reel and Frame number

# Assignment Database

- Database contains all recorded patent assignment information from August 1980 through today
- Owners voluntarily record assignment information in the database
- Trademark ownership information is included in the Trademark Assignment Database, available at <http://assignments.uspto.gov/assignments/q?db=tm>

# Assignment Searching

- New tool for searching patent assignment data
- Replaces current tool
- Uses a clean, modern user interface
- Contains additional search fields and search functionality

# Assignment Searching

[www.uspto.gov](http://www.uspto.gov) → Patents Index page

# uspto.GOV

## USPTO Launches Improved Patent Assignment Search

Try the new Assignment Search tool for patents. It's part of the president's Open Data and Open Government initiatives to improve data transparency and accessibility. Patent Assignment Search has many more search fields and filters to find patent assignment data. We look forward to your feedback.

## Patent Tools and Links

 [Patent Search](#)

Search for a patent, our attorney database, and more.

 [PAIR](#)

Check the filing status of your patent application.

 [EFS-Web](#)

Submit your patent application or other related items.

 [RAM](#)

Pay your patent maintenance fees and get patent bibliographic data.

 [Assignment Search](#)

Search for patent assignment, or ownership transfer, records.

 [Accelerated Examination](#)

Read about the USPTO's procedures for accelerating the examination of your patent application.

 [Inventor FAQs](#)

Read information for independent inventors.

 [Contact Us](#)

Contact Patents at the USPTO, individual technology centers, the ombudsman, and search for a USPTO employee.

## Assignment Search

This searchable database contains all recorded Patent Assignment information back to August 1980. If you are looking for trademark data, please visit the [Trademark Assignment Query](#).

When relevant information is given to the USPTO to be recorded in the USPTO's assignment database, the USPTO simply puts the information on the public record and does not verify the validity of the information. Recordation is a ministerial function--the USPTO neither makes a determination of the legality of the transaction nor the right of the submitting party to take the action.

## Frequently Asked Questions

### Assignment Information

#### What is assignment?

"Assignment," in general, is the act of transferring to another the ownership of one's property. The Manual of Patent Examining Procedure (MPEP) defines the assignee as "all or part of its right, title and interest in a patent or patent application..." Assigner transfer to another of a party's entire ownership interest or a percentage of that part application. In order for an assignment to take place, the transfer to another must in its associated with the ownership interest—all of the bundle of rights that are inherent in a patent or patent application. Please visit the [Frequently Asked Questions about Assignments](#) for more general information.

#### What assignments are available in the Assignment Search?

The database contains all recorded patent assignment information from August 1981 to the present. All published applications and patents are available in the database.

#### What search criteria can I use?

##### Reel/Frame Number

When relevant information is given to the USPTO to be recorded in the USPTO's Assignment System, or PTAS. Images of the cover sheet of the microfilm reel and frame numbers. Reel and frame are older microfilm terms, but are still used in the records.
